BUILT FOR ALASKAN WATERS

YUKON JET

\$8475.⁰⁰

INCLUDES:

SIDE CURTAINS

**TRAILER WINDSHIELD CANVAS
HEAVY DUTY EASY LOAD**

The Yukon Jet powered by the Hamilton Jet combines high speed versatility in shallow water running with the safety and durability of an all aluminum hull. Three Hamilton-Jet packages to choose from—ranging from 140 HP engine with a two stage jet to a 320 HP engine with a three stage jet. The Yukon Jet with its semi-V designed hull provides a smooth ride, its generous beam and depth provides stability and safety for river fishing and boating.

Advantages:

The ability to use the 181 CID 140 HP & 170 HP Chevrolet engine with the two stage Model 752 in Yukon Jet models 19 and 24 to provide a great running boat at economical prices.

All aluminum hull for durability—tough and light in weight for maximum performance.

Manganese bronze impellers and stainless steel liners for maximum wear for river running.

Unique system of deflector steering and reversing deflector to give outstanding low speed maneuverability.

Low cruising RPM's with low fuel consumption. Approx. 2½ gal. per hour.
