

# Jimmie says it best:

"Many voters will find Hensley's attack on Jack Coghill's age and past disturbing (Coghill was a delegate to Alaska's Constitutional Convention).

"Has Hensley totally forgotten who blazed Alaska's trails, built the highways, bridges, developed our systems of education...? Even a third- or fourth-grader could tell you! It was our parents and our grandparents!

"Perhaps there is life after youth, dignity, respect and maturity after 50 or 60. And, perhaps the November election will reflect some, if not much of the above."
