

Ship-a-canoe to Kotzebue.

When's the last time you saw
a canoe fly?
It happens all the time at Great
Northern Airlines, where we also
do other amazing things like take a washing
machine for a spin to Nome, or make a
42-piece china setting appear in one piece
in Bethel.

At Great Northern, we specialize in ship-
ping outsized or delicate cargo,
and give it the extra care and
attention these shipments
demand.

**We'll get it
to the bush
on time.**

We simply feel that a
housewife in Nome should
open the refrigerator door to get
the milk, instead of reaching through
the hole put there by a careless shipper.

Great Northern is an airline dedicated to
giving rural Alaska the quality shipping it
deserves. So next time you've got some-
thing important to ship, don't find your-
self up a creek without a paddle.
Call Great Northern instead.
