3. LEGAL NOTICES

INVITATION FOR BIDS
STATE OF ALASKA
DEPARTMENT OF
TRANSPORTATION AND PUBLIC
UTILITIES
DIVISION OF HIGHWAY DESIGN
AND CONSTRUCTION

Scaled bids in single copy for furnishing all labor, materials and equipment, including performing all work on Project H-5-0005(40), Fairbanks Area Signal Upgrade, Phase I, described herein, to be subcontracted at 12:00 p.m., prevailing time, March 20, 1980 in the Division Director's Office, Division of Highway Design and Construction, Island Center Building, Douglas, Alaska.

This project consists of the improvement of traffic signal system. Principal items of work consist of the following: 1. Install and adjust signal head; 12 inch lens; 44 each of single section signal lens; 10 each of 24 inch section signal lens; 82 each of 32 inch arrow lens (opposite); 24 each of pedestal head with opposite view; 60 each of signal head back plates; and 4 each of Type III junction box.

All work shall be completed by October 15, 1980 Calendar Days. In accordance with the requirements set forth by the "Federal Highway Administration", the following provisions shall be made a part of all advertisements for highway construction contracts:

"Bidders must submit certifications stating whether or not they intend to subcontract a portion of the work and, if so, that they have taken affirmative action to seek out and consider minority business enterprises as potential subcontractors. Each bidder intending to subcontract must affirmatively solicit the interest, capability, and prices, and shall document the results of such contacts. A bidder's failure to submit this certification or submission of a false certification shall render his bid nonresponsive."

Certification For 25A320 will be included with the bidding documents. Plans and specifications may be obtained by all who have a bona fide need for them for bidding purposes from the Chief of Engineering Services, P.O. Box 1467, Juneau, Alaska 99802, at a charge of \$10.00 (non-refundable) for each assembly. Checks or money orders should be made payable to: State of Alaska, Department of Transportation and Public Facilities. Plans may be examined at the Highway office of the Regional Department of Transportation and Public Facilities offices in Anchorage, Fairbanks, Valdez.

PUBLIC UTILITIES
DIVISION OF HIGHWAY
DESIGN AND CONSTRUCTION
ADVERTISEMENT FOR
PROPOSALS FOR
CONSULTING ENGINEERS
AND CIVIL ENGINEERS

Notice is hereby given that the Commissioner of the Department of Transportation and Public Facilities, has determined. It is in the public interest for the Department to solicit proposals for engineering firms for furnishing services for Highway Design and Construction, Island Center Building, Douglas, Alaska.

This project is presently in the planning stage. The project is estimated that approval and authority to commence final design plans will be received in the first week in April. The State will furnish the Consultant with information and data required to prepare the final design plans except that some additional information and data may be required. Final plans, special provisions and construction estimates for the projects are required by July 3, 1980.

The Palmer City Streets projects will consist of widening of 1.85 miles of urban, curb and gutter, streets including storm sewer and water main, and widening of streets: Arctic Avenue - 0.4 miles; West Evergreen Avenue - 0.4 miles; and the City of Anchorage, Alaska, P.O. Box 1467, Juneau, Alaska 99802, at a charge of \$10.00 (non-refundable) for each assembly. Checks or money orders should be made payable to: State of Alaska, Department of Transportation and Public Facilities. Plans may be examined at the Highway office of the Regional Department of Transportation and Public Facilities in Anchorage, Fairbanks, Valdez.

Robert W. Ward
Commissioner
F-031-1(14), Mile 36 to 50 will re-

quire the final engineering design of 14 miles of rural highway utilizing the recommendations in the local design and design study report which is expected to be made available the first week in April of 1980. The project will include preliminary plan and profile sheets have been prepared and will be submitted in the first week of final plans. Cross sections by aerial photogrammetric methods and ground survey data are coded on magnetic tape for use in the State's computer system.

Qualifications statements are to be contained in a General Standard Form and 255. A completed copy of the Department's "Consultant Questionnaire" and an outline of the firm's general experience and qualifications, including but not limited to previous highway design experience, relevant experience, and the ability to furnish services on a relatively short notice. The experience of the firm should be described by education and experience. If your firm is a minority business enterprise, please indicate in your Qualification Statement.

A copy of the Department's Policy and Procedure 10-007, "Criteria for the Evaluation of Consultants" is available from the Regional Engineer for Highway Design and Construction in Anchorage, Fairbanks, Valdez and Juneau.

A "Pre-Proposal Conference" will be held in the Regional Office on 14 February, 1980 to outline to all interested consultants the terms, information to be made available by the State, the specific details of the project and the tentative time table. For more detailed information concerning these projects, contact Mr. D. Redick, Regional Engineer, Pouch 6900, Anchorage, Alaska 99502; (907)266-1500. Proposals will be received until 1:00 p.m., 28 February, 1980 at the office of the Division of Transportation and Public Facilities, and should be mailed or hand-carried to the Regional Engineer, Pouch 6900, Anchorage, Alaska 99502.
