WE'RE HELPING TO KEEP THE ARCTIC GREEN.

During February and March of 1974, A.I.A. airlifted 33 flights of building materials, fuel, and camp units for temporary housing to Nuiqsut, 200 miles east of Pt. Barrow. Which was our way of helping Inupiat Builders provide new homes, a new clinic, school, store, power plant, post office, jobs for more than 30 men, and the kind of economy that will stay green long after the next snowflake falls.

Sometimes it's not easy to leave home and go to college. You have to leave a lot behind, but you can bring a lot with you, also. We'll try to make you feel at home at Sheldon Jackson College. One of the most popular week-end events this fall was an evening of Eskimo games. Everyone had a turn: students, staff and faculty. It brought home a little closer for some students.

A PERSONAL APPROACH TO EDUCATION
