

MAYBE

Every soul with B.I.A. enrollment number will be convinced that hunting & gathering is a religious activity. (Based on fear, reverence from D.N.A. ancestors.)

MAYBE

The U.S. constitution (religious freedom) and charter of U.N. (anti-genocide) suggests that the distinct 12 Alaskan families are legally interacting with natural existing sources of food & shelter that precede any state law(s).

PERHAPS

Prayer & familiar sharing has license over a makeshift word, used by occupying government: **subsistence**,

CONSIDER THIS:

That every morsel, sip and breath is a spiritual interaction with an undescribed creator. No written word will prevent, those with B.I.A. enrollment numbers, to practice a religious existence, not subsistence.
