

Airport Done; High School Being Built; Longshoremen Needed

By GUY OKAKOK

Barrow Correspondent

Walrus meat has been wasted and thrown by the men who went out with bush planes and shot walrus. All they do is cut the head off and took only walrus tusks—leave the carcass out and never touch it.

We residents here in Barrow have discuss over this, and why they can't they go out by the Eskimo hunters when they went out for walrus, this way the meat won't be left behind.

We hunters don't kill walrus just to get ivory. What we could take in our boats, we kill, and this way we never waste any meat at all. Why can't they go out with the Eskimo hunters? It's cheaper for them—they also could get the walrus head with tusk on for trophy.

You people who willingly to come up to hunt walrus, just think it over.

Longshoremen Needed

We heard today that North Star III wants 50 men from Wainwright to help unloading in Barrow which she will due in Wednesday evening. Beach along the shore are all leveled.

When children here heard that Cecil "Moe" Cole, the first mate, is on board, they get excited. Why they did is, every year, Moe brings in candies and gums and gives them out to the children. That's why they anxious to see him.

Good Year

I believe we have a good year in these two months, July and August. Hunters here stored all they can and stored them in their meat cellars

for winter use. Now most of them hunters are in so they could help unloading cargos off from North Star III.

Airport Completed

The new airport here in Barrow is now completed. The name of our new airport is Wiley Post and Will Rogers Airport, after these two famous men who wanted to reach Barrow but never did reach their goal.

This new airport was dedicated on 15th of August, the day after these two famous men lost their lives in 1935.

Paul Maurer was the speaker. Paul said to the congregation that he had known Will Rogers and have seen him 37 years ago. Once, he said, the big money was offered to Will Rogers but he rejected. Instead, he rather see this money goes to the poor people in Indiana—the man who has love for the people whether the yare rich or poor, or any races colored, yellow or white.

A very good example, as we must love each other.

New High School

New high school here is almost half done and another year or more, everything will completed.

There's a good sized schools here but still these two won't hold every child who could be able to go to school.
