Alaskans needing special care can count on these people for Compassion.

Each year, Our Lady of Compassion Care Center becomes home to hundreds of people from throughout Alaska who otherwise couldn't get by. People who because of age, accidents or ailments can no longer take care of themselves at home.

With the guiding vision of our Community Advisory Board, the center is getting better every day. We are the largest long-term health facility in the state committed to 24-hour skilled nursing care.

So we'd just like to thank the Community Advisory Board of Our Lady of Compassion Care Center. Because of their continuing work, those in need of constant care have a friendly home and compassionate care.
