

# **TOM SHELDON SR., CANDIDATE FOR BOROUGH MAYOR NORTHWEST ARCTIC BOROUGH**

I'm running for borough mayor because I think I can do a good job of representing you and directing the affairs of our new borough. I strongly believe in local control and think that every opportunity should be afforded you in participating in the decisions of our new borough. You should help us determine the level of taxation. You should help us decide where we spend these tax dollars and what programs we offer. I promise to consult with you regularly on these and other matters affecting you.

We must have a cost-conscious government which offers only these services we can afford to provide and are needed. It should not displace any service now being provided by a local government which is doing its job. We must not place a mortgage on our children's future, nor place our land in danger of excess taxation. We must demand, and our borough must provide, cost-effective government. I promise to work hard to represent you in achieving that goal.
