

US Delinquent On VISTA Pay

William H. Crook, Director of VISTA, in a letter to about 4,000 VISTA Volunteers, said that since Oct. 24th., the Volunteers and staff have been without funds.

"It also means that you may not be paid your food and living allowance for this coming pay period," he wrote.

He asked them to continue their service to the poor as long as possible.

The Job Corps also reported that it owes about \$2.75 million to contractors who run its youth centers but who have not been paid for the past week.
