A forward look at Alaska's past.

Dog sledding is part of the history and culture of Alaska. But the original use of dog sleds — to transport men and materials — has diminished over the years. Improved transportation facilities and the use of snow machines have lessened the need for sled dogs. Still a number of individuals

and organizations are working hard to preserve this aspect of Alaskan culture. And we're glad we have been able to help — by contributing prize money for sled dog races and by sponsoring individual racers. At Exxon, we're interested in Alaska's past as well as its future.
