

A Time To Sow, A Time To Reap

Springtime in Alaska. A time of rebirth, a time of renewed growth, a time of planting the seeds of tomorrow's bounty. At BP Exploration, it's the time when we make one of our most important investments in Alaska's future as well — our

annual BP Exploration Principals' and Commissioner's Scholarships.

The scholarships are a reward for past performance and an endowment toward future achievement. Each year, 25 graduating high school seniors statewide are awarded four-year Principals' Scholarships by a panel of Alaskan principals. A single Commissioner's Scholarship is awarded annually by the state's Commissioner of Education.

Since its inception in 1985, the program has grown. This year, 100 students all across Alaska will receive a total of \$116,000 through the BP Exploration Principals' and Commissioner's Scholarships.

At BP Exploration, we understand that tomorrow's bounty depends on today's hard work and investment. We're proud to help build Alaska's future through our Principals' and Commissioner's Scholarships program, and we salute this year's recipients.
