LEGAL NOTICE

APRIL 1, 1977 NOTICE OF PRUDHOE BAY UNIT HEARING

O.K. Gilbreth, Director, Division of Minerals and Energy Management, Department of Natural Resources, in accordance with authority delegated to me by the Commissioner, Department of Natural Resources and the Director, Division of Lands, hereby gives notice of a public hearing to be held in Anchorage, Alaska on May 3, 1977 at 9:00 A.M. at the Ramada Inn located at 598 W. Northern Lights Blvd., to receive comments from interested parties and members of the public on the application of BP Alaska Inc., Atlantic Richfield Company and Exxon Corporation for approval of a unitization agreement covering lands in the vicinity of Prudhoe Bay, Alaska. The application states that all parties having interest in oil and gas deposits which would be subject to the unit have been invited to join the agreement. The unit agreement has been submitted to the Department of Natural Resources pursuant to the provisions of AS 31.05.110 and AS 38.05.180 and the regulations promulgated thereunder. This unit agreement, which was submitted to the Department of March 29, 1977, is a modified version of the unit agreement submitted to the Department by the working interest owners on August 18, 1976. The changes in the present unit agreement result, in part, from discussions between the Department of Natural Resources and the working interest owners.

The unit agreement would be applicable to the following lands:

UMIAT MERIDIAN

T. 12N., R. 15E., Secs. 19-36
T. 12N., R. 16E., Secs. 25-36

(A complete list of oil and gas leases covered by the unit is contained in the agreement submitted.) Lands adjacent to or in the vicinity of the unit may also be considered for inclusion. The agreement is a "grass roots" unit and will be applicable to all or portions of the Prudhoe, Kuparuk River, and Lisburne oil pools (as defined in the agreement and referenced in Alaska Oil and Gas Conservation Committee Orders Nos. 83, 97 and 98, as amended.) The unit agreement establishes separate participating areas for the oil rim and gas cap of the Prudhoe Bay Reservoir. This agreement also provides for, among other things, expansion and contraction of the unit in future and the establishment of additional participating areas. The agreement

expands in certain ways the right of the State to receive royalty in kind beyond the rights contained in the individual oil and gas leases covered by this agreement.

Based upon the original draft agreement submitted on August 18, 1976, discussion between the Department and working interest owners, the final unit agreement submitted on March 29, 1977, and review of supporting geologic and engineering data (some of which is confidential) the Director, Division of Minerals and Energy Management, proposes to recommend approval of the submitted unit agreement, subject to comments concerning the public interest from interested persons and the public. In support of this proposed action, the Director, Division of Minerals and Energy Management, has prepared a written Decision and Findings. The Director concludes therein that the unit agreement is in the public interest, will result in operation and development under unit plans without regard to lease boundaries and diverse ownership, enable coordination of development activities, avoid unnecessary duplication of facilities, centralize environmental control, conserve oil and gas resources, protect the owner. The Director finds that approval of this agreement will not limit or diminish access to public and navigable waters beyond any limitations (if any) already contained in the oil and gas leases covered by the unit agreement.

Copies of the application submitted, the unit agreement which accompanies the application, and the Decision and Findings prepared by the Director, Division of Minerals and Energy Management are available for public inspection at the offices of the Division of Minerals and Energy Management, 323 East Fourth Avenue, Anchorage, Alaska 99501. A limited number of free copies of these documents may be obtained in person or by mail at the above address. When this supply is exhausted, reproductions will be available at cost.

Persons wishing to submit written comments concerning this unit agreement and the Department's proposed action to approve the agreement are encouraged to submit their comments to the Director prior to the hearing on May 3, 1977.

Persons wishing to participate at the hearing on May 3, 1977, are requested to submit their name to the Director, Division of Minerals and Energy Management, a written copy of any statement they propose to give on or before April 22, 1977, if possible. Notwithstanding these requests, the Director, Division of Minerals and Energy Management, intends to permit participation by all persons who wish to do so.

After the hearing, the Director, Division of Minerals and Energy Management, will submit to the Commissioner, Department of Natural Resources, a copy of the hearing record together with the Director's recommendation for approval or disapproval of the unit agreement. The Commissioner, Department of Natural Resources, will take action upon the recommendation submitted by the Director within twenty (20) days of the date of the hearing.
