

## Bilingual Reports On Calista Corp. Broadcast Over Radio KNOM

ANCHORAGE — Bi-lingual reports on the activities of Calista Corp., regional Native corporation of the Bethel area, are being broadcast live, via phone from Anchorage over radio station KNOM in Nome.

The activity reports are given in English and translated into Yupik Eskimo by William Tyson, of St. Mary's, on Monday, Wednesday and Friday, reports Calistim Erimii, the semi-monthly newsletter of Calista Corp.

Radio station KNOM, a non-commercial, non-profit operation, is heard in parts of the Aleutians, the Yukon River area, portions of the Kuskokwim and on north to Kotzebue.

Bering Straits Native Corp., based at Nome, also has a daily program on KNOM.

The station would also like to see a clearinghouse established for news from all 12 regions, the Calistim Erimii report said.

An all-volunteer force mans the radio station, under the direction of Father Poole.

## 5,000 Cemetery And Historical Sites To Be Inspected By BIA

In the first six months of 1974, nearly 5,000 Alaska Native cemetery sites and historical places located outside of village withdrawals will be inspected by the Bureau of Indian Affairs, U.S. Department of the Interior, as part of initial efforts to comply with terms of the Alaska Native Claims Settlement Act, Morris Thompson, Area Director, Juneau Area Office, of the Bureau indicated today.

"These sites which are so important to the Natives will, where applied for and approved, be withdrawn from the public domain and conveyed to the appropriate regional corporation," the Juneau Area Director said.

By authority of the Act, 12 regional corporations were formed in 1972. They include essentially the same cultural groups and have the same approximate geographic boundaries as the Native associations that were named in the Act and in existence prior to its passage.

Conveyance of the cemetery and historical sites to the corporations will be part of the 40 million acre total settlement. Re-

gional corporations will have such acreage conveyed to them in gradual stages beginning with completion of the enrollment of Alaska Natives. The deadline for completion of the roll is December 18, 1973.

Cemeteries and historical places will include only the area actually used and a reasonable buffer zone not over 66 feet wide around abandoned cemeteries; not over 330 feet wide around an area identified as an historical place. An area will also be conveyed to provide for reasonable future expansion around cemeteries that are still in use.

The regional corporation must apply to the Manager, Land Office, Bureau of Land Management in Fairbanks or Anchorage for the area on which the cemetery site or historical place is located.

The corporation must agree that these cemetery sites or historical places will be maintained and preserved solely for these purposes. However, they may be used for easements for rights-of-way if this becomes essential.

## NOTICES

### LEGAL NOTICE

#### INVITATION FOR BIDS STATE OF ALASKA DEPARTMENT OF HIGHWAYS

#### UNITED STATES POSTAL SERVICE LEGAL NOTICE

From time to time projects requiring Architect-Engineer services will be accomplished at postal facilities with the Alaska Postal District. There are generally two types of projects that the Postal Service will engage in. The first type of project is improvement of employee working conditions such as improvements to heating systems, lighting, restroom facilities, lunch rooms, etc.

The second type of project that will be accomplished at the Alaska Postal District are new construction projects. These new construction projects are varied.

If you are interested in performing A-E work for projects of the type and scope described above, you may obtain a Standard Form 251 from the Industrial Engineer, Anchorage District Office, U.S. Postal Service, P.O. Box 6450, Anchorage, AK 99502.

Completed forms are to be returned to the Industrial Engineer, Anchorage District Office, together with a copy for Regional Procurement Branch, U.S. Postal Service, 631 Howard Street, San Francisco, CA 94106. Said forms will be placed on file and you will be considered for all Architect-Engineer projects.

It is requested that you indicate either on your form 251, or on separate cover, the dollar scope of A-E contracts that you are interested in performing, such as:

\$ 0 — \$ 10,000.  
10,000 — 50,000.  
50,000 — 200,000.  
200,000 — up
