Does your air cargo
service move you
to tears?

*(You should have called
Alaska International Air)*

Cheer up.

And call us next time.

Alaska International Air understands why dependable air service
is so important to people in remote oil camps like Prudhoe Bay.

We've been there.
Thousands of times.

Moving everything from gigantic oil rigs to tiny care packages from home.

We're Alaska's largest all cargo carrier with services to points all around Alaska and world-
wide charter service all around the globe.

For years oil companies have depended on us for service to these sometimes dark and
lonely drilling camps.

Because they know Alaska International Air cares.
And they know we hate to see a grown man cry.

alaska international air
Alaska's largest all-cargo carrier.
