DIVISION OF HIGHWAY  
DESIGN AND CONSTRUCTION**

Sealed bids in single copy for furnishing all labor, materials and equipment and performing all work on Project A07021 Glen Highway M.P. 47.83 to M.P. 83.15, described herein, will be received until 2:00 p.m. prevailing time, October 22, 1981, in the Second Floor Conference Room at 6860 Glacier Highway, in Juneau, Alaska.

This project will consist of overlay paving of 37.32 miles of roadway near Palmer.

Principal items of work consist of the following: 44,000 tons of asphalt concrete, Type II; 16,300 tons of asphalt concrete, Type II; leveling course; 3,700 tons of asphalt cement, AC-2.5; 400 tons of CS-1 asphalt tack coat. Lump sum items include construction surveying by the contractor.

All work shall be completed in 90 Calendar days.

The following provisions are made a part of all advertisements for highway construction contracts:

"Bidders must submit certifications stating whether or not they intend to subcontract a portion of the work and, if so, that they have taken affirmative action to seek out and consider minority business enterprises as potential subcontractors. Each bidder intending to submit part of the contract work shall make contact with potential minority business enterprise subcontractors to affirmatively solicit their interest, capability, and prices, and shall document the results of such contacts. A bidder's failure to submit this certification or submission or a false certification shall render his bid nonresponsive."
