Weather

April's most significant weather abnormality within Alaska is in the area of precipitation. Considering snowfall, Annette received over six times its normal amount.

King Salmon measured four times the amount and Yakutat nearly three times.

For the liquid variety, Ketchikan approximately doubled its normal amount and received in one month several inches more than most areas of the state receive in one year.

WANTED: Chilkot Blankets; totem poles; ivory pipes and carvings; argilite carvings; potlatch bowls; fish hooks; spoons and all N.W. items 50 years of age or older. Send photo or sketch and prices to: Albert T. Miller, 2235 West Live Oak Dr. Los Angeles, California 90028.
