### Your new home is here.

...in our book of affordable wishes. See for yourself the natural beauty timber homes we're proud to offer. Homes we're sure Nature takes pride in, too. In our all-new 44 pages of full-color illustrations and plans, you will find a home you will be proud to own...that you can own, at an affordable price. We cut and number the timbers for your home or bush cabin in our factory, from one of the illustrated plans or your own design, then ship them directly to the bush. Free price estimate on shipping and handling. We also have our own Bush Aircraft Service, ready for assembly, to your lot. Laminated, decorative-grade timbers go together to form an energy-efficient fulfillment of your wish. Also find out about our new THERMO-LAM energy-saving wall.

Start now, by sending \$5.00 for our catalog. Better yet, stop by our office and model home.
