

Hospital, staff pleased with gift

Sealaska donates large-screen television

Sealaska Corp. recently contributed a 40-inch Magnavox large-screen television to the patients and staff of Mt. Edgecumbe Hospital in Sitka.

"This was part of our contributions program, and we were responding to a request originated by the newly

formed Mt. Edgecumbe Hospital Auxiliary," said Ross V. Soboleff, Sealaska director of corporate communications.

"We hope that the patients get many hours of enjoyment from this cor-

porate gift," he said.

Ethel Lund, Southeast Alaska Regional Health Corp. president, said hospital patients and staff were pleased with the gift. "I can't tell you how happy and proud it made a lot of folks," she said.
