

ECONOMIC DEVELOPMENT

Elmer Rasmuson will bring to the United States thirty years of solid recognizable accomplishment in economic development. As Alaska's most successful businessman, he can apply his knowledge and experience for all Alaskans in the halls of Congress.

During the recent past, the federal government has seen fit to punish Alaska for political reasons. Educational funds have been cut back! Road monies and vital airport construction funds have been cut in disproportionate percentage to other states. Extensions of time for state selection of lands have been denied.

Elmer Rasmuson knows how to accomplish more for Alaska at the federal level and will not be satisfied until these and other stumbling blocks have been removed. Economic development doesn't just happen—it takes experienced hard workers who know how to get things done.

You couldn't buy Elmer Rasmuson's knowledge, experience and ability—but you can have it for your vote! Invest in Alaska's future—vote for Elmer Rasmuson for United States Senator.

Elmer Rasmuson
REPUBLICAN

YAMAHA SNOWMOBILE

The world's largest manufacturer of two-cycle motorcycle engines —

Parts Free One Year

Toughest snowgo made—tested three years—extra gas tank—22 H.P.—no mixing gas
