

Letters to the Editor

12/22/67

Dear Editor:

It's only three more days till Christmas. It is snowing today and it's cold out. It seems like that today (Friday) is Saturday because there is no school. School got out yesterday for our Christmas vacation. School starts again January 2.

Our science teacher, Mr. Emde, let us see the moon through a powerful telescope. We saw many craters. We also saw Venus.

Happy New Year to you all up north.

Sincerely,
Harold Riach
