State of Alaska Bioenergy Program REQUEST FOR PROPOSALS

The Bioenergy Program's goal is the efficient use of biomass as a source of energy. "Biomass" is defined as logging and mill residue, MSW, agricultural or crop waste, and dead or diseased timber.

Proposals are sought in the following areas: inventorying biomass; efficient methods of harvesting, collection, and transportation of biomass; biomass conversion technologies; and environmental impacts of biomass use. Commercialized equipment applications are emphasized.

Copies of this RFP may be received from:

Pat Woodell
Office of Energy
Suite 722, 3601 C street
Anchorage, Alaska 99503
Phone: 582-2728

Deadlines: Last day to answer substantive questions: May 15
Proposal submission: June 10.

The Bioenergy Program is funded by D.O.E. under a grant managed by the Boneville Power Administration.
