### NOTICE OF UTILITY TARIFF FILING

The ALASKA PUBLIC UTILITIES COMMISSION gives notice that ALASKA VILLAGE ELECTRIC COOPERATIVE, INC. (AVEC), an electric utility, has filed a tariff revision (TA95-169). AVEC proposes that one component of its rates vary by village rather than be a uniform system-wide rate. That component is the part that covers AVEC's fuel and purchased power costs.

Effective January 20, 1995, new rates went into effect for AVEC. These new rates are summarized below.

SCHEDULE	(NON-FUEL) ENERGY RATE	RATE FOR FUEL AND PURCHASED POWER	DEMAND CHARGE	POWER COST EQUALIZATION*
Residential	33.4¢/KWH	10.93¢/KWH		27.41¢/KWH
Small Commercial	30.3¢/KWH	10.93¢/KWH		27.41¢/KWH
Large Power	First 1500 KWH--28.5¢/KWH Over 1500 KWH--20.5¢/KWH	10.93¢/KWH	First 10 KW--No Charge Over 10 KW--\$10.40/KW	1st 1500 KWH--27.41¢/KWH Over 1500 KWH--20.53¢/KWH

\*Power Cost Equalization (PCE) is a program under which the State of Alaska pays a portion of the electric bills for consumers. Generally, PCE reduces the effective rate per KWH up to 700 KWH per month per eligible customer. Some customers (state or federal offices or facilities except for public schools) are not eligible for PCE. Some customers, classed as local community facilities, are usually eligible for PCE to apply to more than 700 KWH of usage.

In TA95-169 AVEC proposes that the rate for fuel and purchased power, now 10.93 ¢/KWH for all customers, vary by village to reflect actual fuel and purchased power costs of that village. AVEC also proposes village specific PCE rates and village specific rates it will pay to purchase nonfirm power (NFPFR). (AVEC does not propose any changes to the non-fuel energy rates or demand charges in the above chart.)

Following are examples—for three villages—of the bill a residential customer using 500 KWH per month would pay under the current and proposed rates.
