

# Grant applications available from state

Grant applications for school districts and hospitals are available for funding energy conservation efforts, according to the State Department of Community and Regional Affairs' Division of Community Development.

The Institutional Conservation Program for schools and hospitals has announced the recent opening of the current grant cycle. The total available is \$750,000.

Applications for technical assistance are due by Dec. 15, and applications for energy conservation measures are due by Jan. 15, 1987.

Those who want applications or more information may contact Norman Bair at the Alaska Division of Community Development, 563-1955, in Anchorage.
