drop in

Lots of students drop out of the educational system at one time or another, and most find job opportunities rather limited and glamourless without a college degree. So, many of our most successful students at Alaska Pacific University today are those who decided to drop back in and create a more solid foundation for their futures.

Maybe it's time you got back on the road to success by attending A.P.U. this fall. As Alaska's only private university we offer smaller classes where you can get the personal attention you might need to get back into the swing of student life. And you'll get the kind of guidance you'll need to design a course of study that will lead you toward success in your personal goals.

It's not too late to register for fall classes at A.P.U. Call Mandy Davies or Eric Egeland at 561-1266 today. They'll show you how to drop back in on the road to success.

Registration: Wednesday, September 4
