## MITCH DEMIENTIEFF DEMOCRAT District 19

Where "Grass Roots" Ends  
Mitch Demientieff begins

In my bid for the State House of Representatives I am going to attempt to show you the path that led up to my candidacy. The picture at the left was taken Sept. 7, 1972 at the gravesite across the river at my hometown of Nenana. At issue was removal of the telephone pole from the gravesite. I was successful in not only removing the pole but also securing funds to get a road constructed to the gravesite. My efforts were successful and encouraged me to take the next step which will be in next weeks edition.
