

Koyukuk Spring Carnival a success

BY FRANKIE DAYTON

Here are results of the Koyukuk Spring Carnival:

On April 14, Wednesday, we had a council meeting about the spring carnival for Koyukuk. I thought we weren't going to have any, but at that meeting I was listening and getting up-to-date information of what they're going to have. Some races were cancelled because the council thought it would be too dangerous.

Earlier that day we made the chute and went over the race track for the men's dog race. The weather was pretty good, blue sky, it was kind of cold, the trail was hard. The next day the trail was hard, the weather was holding out. Then on Friday, right before the dog race, it started to rain. The snow got soft and water-puddles began to form in various parts of town and on the river. The men's dog race was not so good, some of the racers said that there was too much water. The next day the men's dog race was cancelled due to trail conditions.

The other races were pretty good. I think everybody had a good time. The dances were pretty good, the players were Eddy Carlo, Oscar Dayton, Kelly Sommers, and Freddy Nollner. They took turns playing for the dance. We had some pretty good music. Even if the weather was bad I still had a good time.
