

# NATIONAL COOPERATIVE BANK

Partners in Innovation with Alaska Native Organizations

Jake Adams, President, Arctic Slope Regional Corporation, Barrow, Alaska

NCB first partnered with Arctic Slope in 1992, financing the Eskimo Building, (shown left). In 1995 Arctic Slope expanded its operations and NCB was there to provide financing. From Barrow to Portland, from a simple building to the acquisition of a high-tech thermoplastic components manufacturer, NCB and Arctic Slope have a history of being great partners.
