JOHN B. COGHILL

Carpenter Goes to Alyeska

ANCHORAGE — Larry Car-penter, with a background of 20 years in news and public affairs, has joined Alyeska Pipeline Service Co. as community relations representative at Fairbanks.

Alyeska is the firm responsi-ble for design, construction and operation of the trans-Alaska

In his new position, Carpenter will work with Fairbanks leaders and with representatives of the news media there, in areas of mutual concern to the com-munity and the pipeline com-

pany.
His office will be at 410 Seconds Ave. in downtown Fairbanks, beginning May 20.

Carpenter has been news director of KFRB-KTVF at Fairbanks since 1969. The same year he and his wife began co-hosting a nightly radio talk show, Bee

ine. Together they have aired more than 1,100 programs.

Prior to this radio-television assignment, Carpenter was assoassignment, Carpenter was asso-ciate director of University Re-lations with the University of Alaska. He also served as public relations director and later pro-gram director of the Alaska 67 Centennial Exposition.

He worked for several news-

LARRY CARPENTER

papers and magazines in Ohio and New Jersey before coming to Alaska in 1966. He has a degree in journalism from Kent State University and studied mass communications at Syra-

mass communications at Syracuse University.
His wife, Sunny, is the depoputy presiding officer of the Fairbanks North Star Borough Assembly. The Carpenters have a son, Casey.

Maximum Length of Gill Net Set

JUNEAU — The maximum length of gill net which may be used by Bristol Bay commercial fishermen this season has been set at 25 fathoms per drift gear license holder and 12-1/2 fathoms per seat at the license holder.

license holder and 12-1/2 fathoms per set net license holder, the Department of Fish and Game announced recently.

Michael L. Nelson, area biologist for Bristol Bay, said the gill net length restrictions are only for the emergency order period, which is June 16-July 17 for the Nushagak District and June 23-July 17 for other districts in Bristol Bay.

Before and after the emergency order period, the maximum

cy order period, the maximum allowable length of net will be 150 fathoms for drift nets and

Two years ago, the Board of Fish and Game adopted a sliding gear scale for the Bristol Bay commercial salmon fishery which determines the length of net each gear license holder may fish.

The length is based on the forecasted red salmon harvest

and the total fathoms of gill net registered by all commercial fish-

Nelson said that although commercial fishing license appli-

cations received prior to the April 15 deadline have yet to be completed, the number of fathoms licensed to date has already exceeded the level which would reduce the length of net to the minimum.

As of May 15, fishermen had registered 154,520 fathoms of gill net gear for Bristol Bay. Fishermen registered 307,000 fathoms of net in 1972, while 409, 000 fathoms were registered in

During the emergency order period, gear license holders may combine their units of allowable gear to a maximum of 150 fathoms for drift nets and 50 fathoms for set nets. However, each gear license holder who com-bines his gear with another must be physically present while the gear is being fished and must as-

sist in the operation of that gear.
The Department of Fish and Game anticipates that there will be little or no fishing time allowed between June 23 and July 17 with the possible exception of the Togiak district.

Fishing after July 17 is anti-cipated but not guaranteed and some districts may be further closed if necessary to further protect various salmon stocks.

Prove Popular-Airport Paperbacks

books are finding their way into 7 northern will northern villages through an airport library project sponsored by the Kegoyah Kozga Library Association in Nome and funded by the Alaska State Library in Juneau.

The villages are Nome, Kotzebue, Point Hope, Noorvik, Unalakleet, Galena, and Barrow. The paperback library is located the Airline Terminals in e, Galena, Barrow, and Nome, C Unalakleet.

Unalakleet.

In Point Hope the Airport
Library is the home of Nick
Hank, the Wien Agent, and in
Noorvik it is located in the
offices of the Alaska Rural
Teacher Training Corps.

The idea of the Airport

The idea of the Airport Library was to get low cost current popular reading materials into areas of Alaska where there is a great need and to provide reading materials for the

traveling Alaskan.
"It works just great," says
Kathy Rahmn, coordinator of
the program in Nome. The
books are traveling as much as
the readers and we all have a
greater variety of reading materials."

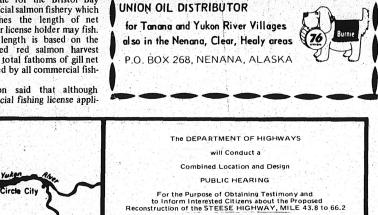

According to Mary Matthews

According to Mary Matthews, State Library Coordinator for the Northern Region, one of the objectives of this project was to encourage local communities to develop their own libraries.

"We feel this project has been a success because now residents of the Airport Library villages are saying that they'd like to have a community library of their own."

their own.

Every month a paperback kit
goes to each village in the
project so there is a continuous
supply of new materials. The
project started in 1973 and will
continue throughout the comment continue throughout the coming

PROJECT LOCATION Mile 66.2 Mile 43.8 FAIRBANKS

To be held on Thursday, June 27, 1974, at 7:00 p.m. in the Conference Room of the Highway Department Complex at 2301 Peger Road. An Environmental Impact Statement has been prepared and will be available for inspection at the hearing. Maps and other project development information are available for inspection and copying at the Highway Department Complex. All verbal testimony presented at the Public Hearing and all written comments presented either at or within ten (10) days following the Hearings will become a part of project record. This project is tentatively scheduled for construction in 1978. Relocation assistance programs that will be available for affected persons and businesses within the project's right-of-way limite will be discussed.

DEPARTMENT OF HEALTH AND SOCIAL SERVICES PUBLIC ADVERTISEMENT

The Office of Drug Abuse and Treatment Act of 1972, Public Law 92-255, authorizes formula grants to states to assist in planning, establishing, maintaining, coordinating and evaluating projects for the development of more effective prevention, treatment and rehabilitation programs to deal with drug abuse and drug addiction.

In compliance with this Act, the Department of Health & Social Services has been given the authority to develop, administer and annually review a State Plan. The 1973-1974 State Plan has been developed according to federal guidelines. The Plan is a public document which presents a coordinated, comprehensive program for the orderly development of needed drug prevention, treatment and rehabilitation programs for the State of Alaska. It serves as the basis for the allocation of formula grant funds and provides for more effective utilization of federal, state and local resources, and sets appropriate, realistic goals and priorities. Additionally, it will provide a useful tool for evaluation; will assist in community education; and will contribute to total state growth and development.

The State Plan is available for examination and comment through June 17, 1974 by interested persons at the State Office of Drug Abuse, Pouch H, Juneau, Alaska 99801, or call 586-3556.
