DEPARTMENT OF HEALTH AND SOCIAL SERVICES PUBLIC ADVERTISEMENT

The Office of Drug Abuse and Treatment Act of 1972, Public Law 92-255, authorizes formula grants to states to assist in planning, establishing, maintaining, coordinating and evaluating projects for the development of more effective prevention, treatment and rehabilitation programs to deal with drug abuse and drug addiction.

In compliance with this Act, the Department of Health & Social Services has been given the authority to develop, administer and annually review a State Plan. The 1973-1974 State Plan has been developed according to federal guidelines. The Plan is a public document which presents a coordinated, comprehensive program for the orderly development of needed drug prevention, treatment and rehabilitation programs for the State of Alaska. It serves as the basis for the allocation of formula grant funds and provides for more effective utilization of federal, state and local resources, and sets appropriate, realistic goals and priorities. Additionally, it will provide a useful tool for evaluation; will assist in community education; and will contribute to total state growth and development.

The State Plan is available for examination and comment through June 17, 1974 by interested persons at the State Office of Drug Abuse, Pouch H, Juneau, Alaska 99801, or call 586-3556.
