

# Alcoholism Grant for Aleut League

Senator Ted Stevens has announced that the Aleut League rehabilitation project has received a \$93,750 grant from the National Institute on Alcohol Abuse and Alcoholism.

Previously the League had operated under a contract with NIAAA. Under contract provisions the League had a specified time frame in which to accomplish certain objectives.

"The grant program," said Senator Stevens, "will allow the League much more latitude in the development of the Alcoholism Treatment Program."

This change to a grant status is concrete evidence of the faith NIAAA has in the abilities and accomplishments of the Aleut League."
