

## **Emergency Medical Services**

February and March were busy for Emergency Medical Services.

During the first part of February, Sarah and I taught an EMT refresher course, and then a CPR course for the nursing staff at P.H.S.

The week of the 15th, we taught an emergency trauma technician course at Deadhorse to borough employees. Thanks should go to the service area 10 staff for their support and cooperation during our class.

The week of March 1st, I went to Nuiqsut to teach First Aid and CPR classes. Other than a few school age kids there was not a very good turn out for the class. While in Nuiqsut, I was asked to participate in a search and rescue which went well. Everyone involved worked well together and the rescue was a success.

The 15th - 17th, I taught a basic first aid and home safety class to the Children's Receiving Home staff.
