

FIELD ANNOUNCEMENT

Emergency Regulation Closing the Barren Islands in Game Management Unit 8 to the Taking of Sea Lion Pups

Justification:

1. Whereas, game management includes the concept of harvesting game populations on a sustained yield basis; and
2. Whereas, an adequate harvest of sea lion pups has been achieved and a continuation of the season could result in an over harvest of this resource,

NOW, THEREFORE, Section 302.06(b) of the 1965-1966 Alaska Game Regulations is hereby amended as follows: The taking of sea lion pups (sea lions of less than one year of age) on the Barren Islands, within Game Management Unit 8, is hereby closed at 12:00 midnight, June 16, 1966.
