IT'S A LONG L-O-N-G STORY

It stretches the imagination,
but the fact is the longest-lived
member of the animal kingdom—the
giant tortoise—has a record
life span of 190 years.

Another span — Louisiana's
Lake Ponchartrain Causeway
II—is the world's longest

bridge—nearly 24 miles end to
end.

The equivalent of 300,000
miles of leased lines—12 times
the equator's length—go into
the world's largest commercial
computer-controlled communi-
cations network. It's Holiday
Inns' Holidex system, which
scans room availability and
makes instant reservations
throughout the six-continent
chain.

And by a bare 145 miles, the
Nile ranks as the longest river.
It flows 1,445 miles, as against
the runner-up Amazon 1,000
miles.
