

St. George officials offer correction

Officials of the St. George Tanaq Corp. said that a press release issued by Sen. Frank Murkowski's Washington, D.C., office concerning the return of funds to Native corporations was inaccurate.

The release stated that St. George Island received \$489,958.59 from the Department of Interior. St. George officials said the money went to both St. George and St. Paul, not St. George only.
