

DEVENS

for Congress

***"Healthy families, healthy children
and a healthy culture can be
achieved through culturally
appropriate treatment. Why can't
this be done? I think it can."***

— John Devens

John Devens with Hannah Solomon in Fairbanks, Alaska

- **I understand the importance of the subsistence economy to a native community. I respect the native desire to maintain cultural integrity. I will always support these values.**
- **I will work hard for federal clean-up funds when I get to D.C., because it is the right thing to do.**
- **Strengthening ties between rural and urban Alaska means a stronger economy and a better society. We can no longer afford the status quo.**
