

UA Teacher Receives Award

COLLEGE — Mrs. Barbara Ruth Perles, a part-time mathematics teacher in the University of Alaska's Student Orientation Services (S.O.S.) program, has been selected as one of 1971's Outstanding Educators of America.

The S.O.S. program at the University of Alaska in which Mrs. Perles is serving was established to assist students from small schools and a rural environment, primarily native youths, to make the transition to the more complex university life.
