ALASKA PUBLIC UTILITIES COMMISSION
Robert A. Lohr
Executive Director

The ALASKA PUBLIC UTILITIES COMMISSION hereby gives notice that ALASCOM, INC., a long lines telecommunications utility, has filed a tariff revision (TA337-98) which is a proposal to add a new Section 8, Special Service Arrangements, to its tariff.

The new Section 8 has three sub-sections: Description, Terms and Conditions, and Eligibility. In the Description sub-section, Alascom proposes the following provision.

A Special Service Arrangement (SSA) is an individually negotiated contract offering tailored to meet the telecommunications needs of the customer for whom the offering was designed. Each SSA contains a service, or combination of services, and includes supplemental terms and conditions, including, without limitation, prices, waivers and alternative pricing structures based upon volume, term utilization and other commitments, not otherwise provided for in this tariff. An SSA may address one or more of the following customer needs related to the provision and receipt of telecommunications service(s) under this tariff: special provisioning flexibility; special network monitoring; special outage credit provisions; special "turnkey" operation and other specially developed features, functionalities or undertakings. An SSA may also address, or be responsive to, special competitive conditions that exist at the time an SSA is agreed to between the Company and a customer.

Alascom proposes that each SSA be included in the tariff as an option, to be summarized in Section 8 of the tariff. The services described in each SSA option are available to any customer who agrees to all the terms and conditions contained in the option. A customer who terminates an SSA before expiration of the customer's term commitment will be required to pay termination or under-utilization charges.

Alascom also proposes conditions applicable to the relationship between services included in an SSA and other discount offerings made by Alascom.

If the Commission finds that the proposal by Alascom is not just and reasonable, the Commission may approve a rate or classification which varies from that proposed.

Detailed information may be obtained from Alascom whose address is P.O. Box 198607, Anchorage, Alaska 99519-6607. The filing may be inspected at the offices of the Alaska Public Utilities Commission, 1016 West Sixth Avenue, Suite 400, Anchorage, Alaska 99501.

Any interested person may file a statement of views favoring or opposing this tariff filing with the Alaska Public Utilities Commission. If you are a person with a disability who may need a special accommodation, auxiliary aid, or service or alternative communication format in order to comment on the proposed tariff revision, please contact Pat Oldenburg at 263-2107 by 4:30 p.m., May 3, 1993, to make any necessary arrangements.

To assure Commission consideration of comments or petitions prior to a final decision on this matter, those comments or petitions must be filed by May 10, 1993. Any statement filed with the Commission should clearly affirm that the interested person has filed a true copy of the statement with Alascom.

Public Notice Natural Resource Plans For

11th Air Control Wing Installations

Natural Resource Plans are required for installations with land and water areas possessing or capable of producing renewable natural resources by Air Force Regulation 125-1. The Air Force is to develop policy, procedures, and responsibilities for managing and a program for restoring, improving, developing, and conserving natural resources. These resources include soil, water, landscapes, forests, fish, wildlife, endangered species, and outdoor recreation resources on Air Force Lands.

The process of completing the Natural Resource Plans will be undertaken during 1993 for 11th Air Control Wing Installations. Seven Natural Resource Plans are currently being

considered and would include the following installations, listed with neighboring communities:

1. Shemya Air Force Base, on Shemya Island.
2. Galena Air Force Station, at Galena.
3. King Salmon Airport, at King Salmon.
4. North Warning Sites
Barter Island Long Range Radar Site
LRRS, at Kaktovik
Oliktok LRRS, near Nuigaut
Point Barrow LRRS, at Barrow
Point Lay LRRS, at Point Lay
North Coastal Sites
Cape Lisburne LRRS, near Point Hope
Kotzebue LRRS, at Kotzebue
Tin City LRRS, near Wales
5. South Coastal Sites
Cold Bay LRRS, at Cold Bay
Cape Newenham LRRS, near Platinum
6. Cape Romanzof LRRS, near Scammon Bay and Hooper Bay
7. Interior Sites
Fort Yukon LRRS, at Fort Yukon
Murphy Dome LRRS, near Fairbanks
Indian Mountain LRRS, near Hughes
Sparrevohn LRRS, near Lime Village
Tatalina LRRS, near McGrath

In relation to each document the Air Force will prepare an Environmental Assessment (EA) on the potential implementation of the plan, as required by AFR 19-2 Implementing the National Environmental Policy Act. The general public is invited to provide comments regarding the management of the natural resources at the installations. The public comments will be considered in identifying issues and concerns to be addressed during the environmental studies and documents in the Natural Resource Plans and each respective EA.

Written comments responding to this Public Notice will be received up to 30 days from the publication date of this notice. To comment and request information on the Natural Resource Plans, please contact Mr. Gene Augustine, at the 11th Civil Engineering Operation Squadron, Environmental Management Flight, 21885 2nd St, Elmendorf AFB AK 99506-4420, 907-552-4532 and FAX 552-1533.

NOTICE OF UTILITY TARIFF FILING

The ALASKA PUBLIC UTILITIES COMMISSION hereby gives notice that the ALASKA EXCHANGE CARRIERS ASSOCIATION, INC. (AECA) has filed a tariff revision (TA16-989) to establish a new rate element for the recovery of 800 Database Access Service Query ("800 Database Query") costs. AECA maintains that the proposed new rate element is needed to comply with federal requirements for 800 number portability beginning May 1, 1993. The proposed rates for the 800 Database Query are company specific and will be billed and collected by each Local Exchange Carrier (LEC). TA16-989 also includes new definitions and revised rules associated with the 800 Database Query service.

The 800 Database Access Service Query rate for all LECs, except Anchorage Telephone Utility (ATU), GTE Alaska, Inc. (GTE), Telephone Utilities of Alaska, Inc. (TUA), and Telephone Utilities of the Northland, Inc. (TUNI), is \$0.0292 per query. The rate for ATU is \$0.0236 per query. The rate for TUNA and TUNI is \$0.0230 per query. There is no rate listed for GTE, however the rate sheet (sheet no. 279.1) notes that for "GTE Alaska, 800 Database Query Service is provided pursuant to the rates, terms and conditions set forth in GTE Operating Companies Tariff FCC No. 1."

If after investigation the Commission finds a rate or classification different from that proposed by AECA is reasonable, the Commission may approve a rate or classification which varies from that proposed.

Detailed information may be obtained from AECA whose address is 3380 C Street, Suite 201, Anchorage, Alaska 99503. The filing may be inspected at the offices of the Alaska Public Utilities Commission, 1016 West Sixth Avenue, Suite 400, Anchorage, Alaska 99501.

Any interested person may file a statement of views favoring or opposing this tariff filing with the Alaska Public Utilities Commission. If you are a person with a disability who may need a special accommodation, auxiliary aid, or service or alternative communication format in order to comment on the proposed tariff revision, please contact Pat Oldenburg at 263-2107 by 4:30 p.m., May 18, 1993, to make any necessary arrangements.

To assure Commission consideration of comments or petitions prior to a final decision on this matter, those comments or petitions must be filed by June 1, 1993. Any statement filed with the Commission should clearly affirm that the interested person has filed a true copy of the statement with AECA.

While comments will be considered by

the Commission in determining the appropriate action to be taken, those comments will not serve to make the person a party to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with 3 AAC 48.110 of the Alaska Administrative Code.

NOTICE OF UTILITY TARIFF FILING

The ALASKA PUBLIC UTILITIES COMMISSION hereby gives notice that the ALASKA EXCHANGE CARRIERS ASSOCIATION (AECA) has filed a tariff revision (TA15-990) to add numerous provisions regarding Telecommunications Service Priority (TSP). AECA requests that the tariff revisions take effect on March 10, 1993.

AECA describes the TSP system as follows:

The Telecommunications Service Priority System replaces previous Priority System and provides priority treatment for National Security Emergency Preparedness Services critical for maintaining a state of readiness or responding to and managing any event or crises which causes or could cause harm to the population, damage to property or a threat to the security of the United States.

AECA proposes to replace the present Section 9.3.3 (Restoration Priority) with a new Section 9.3.3 (Telecommunications Service Priority - TSP).

AECA also proposes to add the following nonrecurring and recurring charges.

Non-Recurring
Monthly

Charge
Rate
Switched Access Service
TSP Charge per circuit
\$55.00
TSP Database Charge per circuit
\$1.00

Special Access Service—Surcharge for
Special Access Service
TSP Charge per circuit
\$55.00
\$1.00

If after investigation the Commission finds a rate or classification different from that proposed by AECA is reasonable, the Commission may approve a rate or classification which varies from that proposed.

Detailed information may be obtained from AECA whose address is 3380 C Street, Suite 201, Anchorage, Alaska 99503. The filing may be inspected at the offices of the Alaska Public Utilities Commission, 1016 West Sixth Avenue, Suite 400, Anchorage, Alaska 99501.
