

UBA opens new Fairbanks office

United Bancorporation is pleased to announce the opening of its new Fairbanks Interior Regional Office at 714 4th Avenue, Fairbanks. Full service banking was available at this downtown location as of June 9, 1986, including the added amenities of four drive-up lanes, an Automated Teller Machine (24-Hour Banker), and 115 parking spaces.

James McMillan, Senior Vice President and Branch Manager, indicated "I'm not only happy with the new building, but also with the additional banking services that we are able to offer our customers." McMillan will be assisted by Bill Bolton, Assistant Branch Manager; Maxine Barron, who will be in charge of Operations; and Ed Harrod, Real Estate Manager.

Wirum and Cash were the architects for the 32,225 square foot project, and GHEMM Company Inc. was the general contractor. United Bank Alaska will be utilizing all of the first and a portion of the second floor of the three-story building, leaving the remaining space available for lease.
