

# TT Tickler:

The speaker was the editor of this newspaper, and the audience were delegates to the Tlingit and Haida Central Council Convention in Juneau last week. It is likely they will not allow the speaker to forget a minor pronunciation error for quite some time.

Where TT's Richards intended to state, "... I can understand their distrust, although I had hoped that the *battles* we fought together..." instead was heard "... I had hoped that the *bottles* we fought together."
