STATE OF ALASKA

Department of Education

The Alaska State Department of Education's program, "Services to Low Incidence Handicapped Children," began July 1, 1982, with a development grant to the Employment Training Center of Alaska. This program has operated for three years and will end June 10, 1985. The Department of Education proposes to extend the terms of the grant to the Employment Training Center until June 30, 1986. This extension will allow the Department of Education to develop necessary regulations and guidelines for outreach services and to determine funding sources necessary for the long term continuation of the program. Prior to the end of the extension period, a new Request for Proposals will be issued for this project.

Persons wishing more information on this extension may contact:
