

# ***Special needs kids, Pathways to meet October in Anchorage***

Children with special needs, their families and the professionals that support them will come together on October 13-15 in Anchorage for the 1995 Pathways Conference.

Pathways 1995 will mark the fifth time that parents and professionals have gathered to discuss common issues, to learn from one another and network with parents and professionals dealing with similar challenges.

Presentations and facilitators are being sought for 90-minute to half-day workshops in the topic areas of Autism, Assistive Technology, Young Adult/Adult Issues, Behavior Issues and Advocacy. Workshops by parent/professional teams and panels will include hands-on activities, role-playing and demonstrations.

Requests for proposals for workshop presenters will be accepted through June 30th. Contact P.A.R.E.N.T.S. 563-2246 for workshop proposal forms or for more information about Pathways 1995.
