Splendid on looks. Stingy on energy

The rustic elegance of a Lindal Cedar Home has some very practical advantages too. Besides its natural beauty, cedar helps keep you warm in the winter and cool in the summer. Naturally.

Lindal Homes have other features built-in to keep energy consumption and costs down. Our unique cavity-wall design and standard thermal windows give you an added barrier against the weather outside.

Other optional features like Polar Floors, Polar Walls and Polar Cap Roofs can make a Lindal Home even stingier on energy.

Come visit us for the full story on the beautiful and practical advantages of cedar. Or, send \$5 for our 87-page color Planbook. It offers a generous look at Lindal Cedar Homes.
