

# Siberians visit St. Lawrence *this summer*

by Grace Slwooko  
for the Tundra Times

GAMBELL— Another nice summer is going along now at Gambell.

It has been especially good, since the Siberians came and were with us for some time.

But some of us elders missed the first part of their stay. We were at Nome attending a wonderful conference. The elders were brought together then.

But it has been so good to have Siberians at Gambell.

Years ago, we used to make trips by boats that way in spring time when the ice is less.

This time our governments settled the things and had us go see our relatives over there and had them come and see us!
