ing or marketing experience. Experience in para-transit systems development or transportation brokerage strongly preferred. Demonstrated ability to independently develop and complete similar project is desired.

Job Number 624-3 will participate in Transit and Ridesharing in Land-use Development. The successful applicant will be responsible for an 18-month project to develop and implement a program, the purpose of which is to incorporate transit and ridesharing in the land-use development process. The chief objectives are to work with private and public developers to build transportation management into their plans for residential subdivisions, roads, commercial buildings, etc., and to integrate progressive transportation management concepts into Municipal codes that govern development.

Job Number 625-3 will participate in the Transportation Brokerage element. Here, the responsibilities for this 18-month project will be to develop and implement a program to identify and establish appropriate transportation services, particularly in outlying areas. Focus will be on peak hour commuting and local mobility, and the objective of the project is to provide short-term congestion relief and reduce the need for additional highway construction.

Depending on the interests and abilities of the successful candidates opportunities to work on development of shared-ride taxi service, the integration of transit and ridesharing in the land-use development process, and/or fixed-route transit development will also be available, for both positions.

These are mid-level positions with excellent salaries (\$31-36,000) and superior fringe benefits, including six weeks' annual paid vacation. Please forward your resume to Steven F. Williams, Employment, Municipality of Anchorage, Box 196650, Anchorage, AK 99519-6650. For additional information, contact Tom Brigham, Transit Director, at 907-786-8402.

In accordance with the Municipality's Affirmative Action Program, minority candidates are encouraged to apply.
