

Free North Star Borough School Lunch Available

The free lunch program at all Fairbanks North Star Borough School District Schools serving hot lunch, is available to all families whose income meets the requirements of the Alaska Income Scale.

The lunch served under this program is the same one served to all students attending the district schools, according to Mrs. Marguerite Stetson, Food Services Director.

Under the standards set by the Alaska Income Scale, the income requirement varies according to the size of the family.

For instance, for a family of four, the total gross income of the family must not be above \$577 per month.

Special consideration is also given to families whose income has been affected temporarily by unforeseen emergencies.

Many Native families will be able to receive assistance from the Fairbanks Native Center.

Amendment Enables Corporations To Apply for Planning Grants

WASHINGTON, D.C. — Senator Mike Gravel has reported that the Senate approved by a vote of 65 to 16, the Public Works Economic Development Amendments of 1972.

The measure, as reported from the Public Works Committee, of which Senator Gravel is a member, included two amendments he had drafted and pushed for in Committee meetings.

The first Gravel amendment authorizes 100 per cent planning grants to Indian and Alaska Native groups for economic development planning.

Previously, planning grants were funded at only 75 per cent. According to Senator Gravel, this means that Alaska Native corporations can apply for planning grants to the Economic Development Administration without having to provide 25 per cent of the cost of that planning.

The second Gravel amendment redefines the term "Indian

tribes" to include Alaska Native Villages. This assures that the EDA's Indian program is open to Alaska Native Communities.

Under the Indian program, a full 100 per cent of the cost of an approved public works project is funded.

Senator Gravel said "This amendment makes the EDA Bill consistent with the Alaska

Native Claims Settlement Act, which stated that Alaska Native groups should continue to be eligible for Indian programs."
