

# NC MAKES IT BETTER TO RENT BETTER POWER FROM 10 KW TO 900 KW.

Now in Alaska and Washington Caterpillar generator sets from 50 kW to 900 kW are ready for rental as prime or standby power sources.

N C Machinery has the selection to fill any need. And at low, competitive prices. (For 10 kW to 50 kW power, N C offers the dependable Perkins/Kato line.)

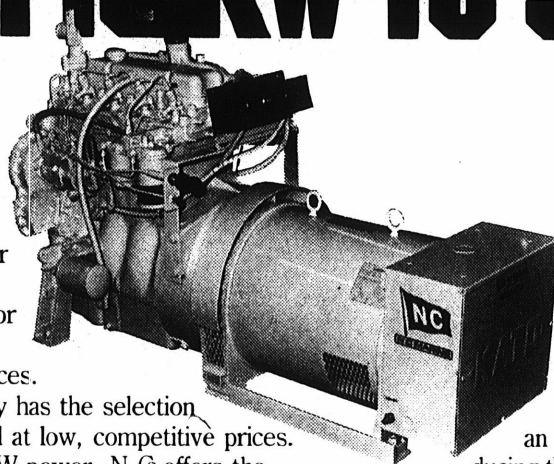

So if you need more power, here's your opportunity to have the power proved around the world at powerfully reasonable prices.

To find out if we have what you immediately need, all it takes is a phone call. Most of the Caterpillar and Perkins/Kato generator sets available are in stock now.

All units are completely equipped, and ready for work. Voltages are available through 480, single or 3-phase. All units include skid base, electric start and batteries, exhaust silencer, and the generator controls and circuit breaker to meet your voltage requirements. Options on our rental generators include trailers, heavy-duty air cleaners, and fuel base tanks.

Short or long term rentals? You have it. Rent by the week or month. On longer terms, rental discounts are available. All N C rental generators are new or late models. They're fully tested and guaranteed to perform at factory specifications. Lease or purchase options are also available.

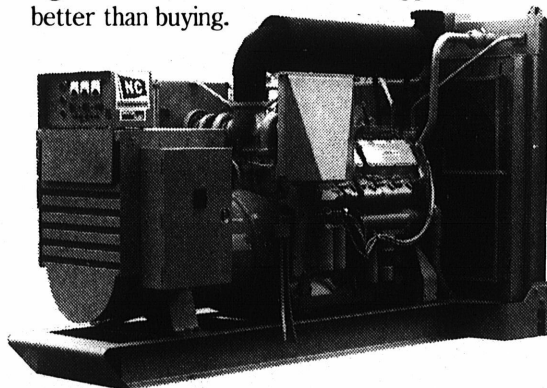

But a dependable, reliable generator isn't all you get with an N C rental. You get N C, too.

N C backs up every rental generator with immediate parts and service in case of emergency. And gives your rental generator all the attention needed to keep it running in top shape.

Caterpillar and Perkins have an international reputation for producing the finest engines you can rent. And N C has an equally good reputation for standing behind its products with the best product support available.

Now that you've found out where to rent a better generator, you may even find out that renting from N C, with all its service support, is even better than buying.

Find out more. Call the N C Machinery branch nearest you.
