

Vern Miller in urban Native post

Fairbanks Native Association, Inc., Board Chairman Vernon F. Miller was elected treasurer of the newly formed National Association of Indian Centers.

The group, meeting in Chicago, addressed the needs of Urban Indian American people and pledged themselves to work toward programs "Which may serve the social and economic interests of off-reservation Indians."

A series of discussions highlighted Indian concerns about President Carter's plans for Indian programs and the appointment of a new commissioner

for the Administration on Native Americans! A wide variety of tribal groups attended the session making the event cross-sectional in its coverage of Urban Native interests.
