Thigpen told the Tundra Times: "Mr. Boore was very generous and pleasant. He treated us with great kindness and we hope to return to St. Peters-burg to see him again."

What will he and his wife do with five cases of Florida oran-ges sent to him through Mr, Boore as a result of their visit with him?

According to Jeff, his wife will "probably take some to school." (Marilyn teaches classes, in economics at Lathrop High' School.), and "we'll give some away to friends."

And, he said, smiling, as he hefted a king-sized orange in his hand, "these will make a lot of orange juice. We got an electric orange juicer about a year ago and haven't had a chance to use it yet."

The Jeane Dixon Predictions

JEANE DIXON'S ANNUAL PREDICTIONS FOR 1972 By Jeane Dixon

(The world-renowned prophetess publishes at the beginning of each year her visions of future events which come to her, she events which come to her, she says, through various psychic channels. In her last set of forecasts, published midyear 1971, Jeane Dixon predicted the reelection of President Thieu in South Vietnam, the admission of Communist China to the U.N. of Communist China to the U.N. with the concomitant walk-out of Nationalist China, and the virtual retirement of Washington Redskin quarterback Sonny Jur-genson from active play. These are her predictions for 1972.)

THE PRESIDENTIAL HOPEFULS

At present the Democratic candidates' channels seem to flow in this order: Senators Ken-nedy, Jackson, Humphrey, and Muskie...Sen. Muskie has a dif-ficult fight ahead. Indeed, I do evet or that his aheared of don not get that his channel of des-tiny leads him into the White House. Of course, these are vibrations from people, that is, man-made, and they vary from

man-made, and they vary from day to day. At this writing, therefore, Sen. Henry M. Jackson seems to have the second heaviest vibes, but I get that two of his advi-sors-although brilliant-are gi-ving him advice on disarmament which will have negative appendix which will have negative reper-cussions, especially in the South.

There seems to be some sti-cky difficulties ahead for Sen. Edward M. Kennedy, involving travel and other people's movements. The 1972 Democratic Con-

vention in Miami Beach will see much confusion but will not be marred with riotous disorders like those which erupted four

like those which erupted four years ago in Chicago. I see my good friend, Sen. Hubert Humphrey, withdrawing from an arduous campaign trail-

for personal reasons. "A dark horse" will make an attempt to be the Democratic Party's presidential candidate: he will have some support, but not strong enough to win. The "dark horse" I see is Sen. William Fulbright.

Richard Milhous Nixon will be the Republican's presidential nominee.

Nominee. Young Americans, at the polls for the first time this year, will vote according to their strong, sociologically-oriented consciences. This will make a differences in future elections and will be evident in 1972

election results. Sen. Eugene McCarthy is trying very hard to be useful, but he will not have the impact on the 1972 elections that he did in 1968.

Sen. Edmund S. Muskie has great charisma and can be very persuasive but I do not get that he will be the victor in 1972. In January, and again in May, he will have an exceptionally good press and be strongly fa vored in pre-election polls, and he will look like the winner. But some partners are associates will and prove worthy of his trust, and their actions will reflect on him and adversely influence his standing. Too, I get that foreign countries do not favor him; this

also will damage his candidacy THE MIDEAST AND ASIA

Turkey, Iran and Greece. The battles in India and Pakistan are just the beginning of other bigger, more devastating wars in that whole area.
