Sectarian Colleges May Get U.S. Grants

Proposed legislation allowing recipients of Bureau of Indian Affairs grants to attend sectarian colleges and vocational schools has been introduced by Senators Ernest Gruening and Bob Bartlett.

The bill, S. 876, would repeal that part of the Act of March 2, 1917, which prohibits funds appropriated by Congress from being used for the education of Indian (including Eskimo and Aleut) children in sectarian schools.

In introducing the bill, Senator Gruening said that all recent Federal programs of assistance to such schools

apply to both public and private institutions, as long as proper safeguards are established regarding the separation of church and state.

He felt that the present law placed Indians at a serious disadvantage in preparing themselves for their chosen careers.

The Department of the Interior is aware of the discriminatory nature of the 1917 law, reports Gruening. The department assisted in drafting the new bill and has indicated that it would submit a favorable report to Congress.

Fairbanks Scout Troop 10 To Display Space Show

WASHINGTON, D.C. — Through the efforts of Congressman Howard W. Pollock with the National Aeronautics and Space Administration, a Fairbanks Boy Scout troop will undoubtedly be the envy of all scouting units in Alaska.

Scoutmaster Douglas E. Holman of Troop 10 Midnight Sun Council enlisted Congressman Pollock's assistance in securing adequate display materials for the troop in the annual SCOUT - O - RAMA to be held in Fairbanks this Spring.

Pollock took the Scoutmaster's request to officials of NASA, and, as a result, NASA is sending the troop a complete poster and photographic display of the U.S. Space Exploration Program.

The Congressman from Alaska commended the Scouts for their interest in the space program and expressed the hope that all those in the Fairbanks area would have an opportunity to view the display.

"I am gratified at the re-

sults of my efforts on behalf of the Scouts of Troop 10," Pollock concluded.
